Grainfree

Optimum growth

Anti-Hairball

# KITTEN GRAINFREE

## With salmon oil

Is your little adventurer already planning an intrepid expedition into the great outdoors?

Almost as soon as a kitten is born it needs special care, as does its mum. Especially in those early months, it is essential to provide the necessary nutrients. Josera Kitten Grainfree meets these special requirements with its high-energy, easily digestible recipe using delicious poultry.

- For growing cats and their mothers during the gestation and lactation periods
- Easily digestible, grain-free recipe with nutritious salmon oil
- The extra portion of delicious poultry for a sensational taste, which even the smallest kittens will love (corresponds to roughly 140 g fresh meat per 100 g kibble)
- With special dietary fibre to inhibit the development of hairballs

### Feeding recommendation:

For Kittens		For pregnant cats	
Age (in months)	Amount of feed / kg bodyweight	Weight	Amount of feed / 24 h
2	50 g	2 - 4 kg	40 - 90 g
3	45 g	4 - 6 kg	90 - 140 g
4	40 g	6 - 8 kg	140 - 180 g
5	35 g		
6	30 g		
7 - 12	20 - 30 g		

Please keep in mind that the recommended amounts are only a rough indication and should be adapted to the individual cat's feeding needs and activity level. Always provide your cat with fresh drinking water.

For pregnant cats: please note that the food requirement during pregnancy depends on the number of kittens. However, you should avoid overfeeding your cat in order to prevent birth difficulties and disturbances during lactation.

For lactating cats: the food can be made freely available as required (ad libitum), as the cat's needs will vary depending on the number of kittens and how much milk is being produced.

**Complete feed for pregnant, nursing and growing cats.**

**Composition:** dried poultry protein; poultry fat; dried potato; pea flour; beet fibre; dried tapioca; potato protein; hydrolysed fish protein; dried poultry liver; 0,5% salmon oil; yeast; minerals; ground chicory root (natural source of inulin)
